Heavy Duty Hydraulic Guillotine

BW-R6710 BW-R5610 BW-R5210

- Casting holder for clamping system and cutting system
- Cutting system with Heavy duty structure
- Movable top cover and separate controlling box
- 2 groups of light curtain safety system
- Stable Hydraulic system with leaf structure
- 80 groups x 99 steps Program for repeat cuts (behind and in front blade)
- Large wide format paper pushing system
- Self-diagnose mode detects button sensor and motor status
- Hydraulic pressure indicator and adjusting valve
- Large volume side table
- Alloy Blade

Model	Max cutting size (mm)	Max Thickness Size (mm)	Min Cut Size (mm)	Cutting Accuracy (mm)	Air Table	Cutting	Touch Screen	Programs	Dimension (mm)	N.W (kg)
R6710	670x670	100	20	+/-0.2	✓	Hydraulic	7"	✓	1565*1030*1470	520
R5610	560x560								1455*920*1470	470
R5210	520x520	88							1440*800*1470	420

Electric Guillotine

BW-4908 BW-4608 BW-QZ320

- Wide Format Pushing System
Backgauge without middle slot ensures pushing accuracy.
- Standard Safety Devices
Light Curtain, Two-hand Operation, Emergency stop.
- Useful Reminders and Assistant
Blade Changing Reminder, Blade sticker Rotation hole Blade depth adjustment outside.
- 4 Modes
Program 80 groups x 80 cuts. Divide 80 groups x 8 cuts micro adjustment valid while recording mode.
- 9 level clamping pressure
Different pressure avoid impressions on the surface of cutting materials.

Model	Max cutting size (mm)	Max Thickness Size (mm)	Min Cut Size (mm)	Cutting Accuracy (mm)	Air Table	Cutting	Touch Screen	Programs	Dimension (mm)	N.W (kg)
4908	490x490	80	30	+/-0.4	/	Electric	7"	✓	1020*780*1325	175
4608	460x490								1020*780*1325	170
QZ320	320x450	25	45	/	/		/	/	/	50

Perfect Binder

K3 K5 K8 K10

- Guides on both sides ensure stable carriage movement
- Book block clamping with thickness selection and input
- 3 binding modes
- Milling system with interchangeable cutter and adjustable angel
- Glue adding without pause
- Cover clamping station with 2 sets of outside gears
- Auto adjustment according to thick and thin book
- Touchscreen with 7 sub menu
- Micro adjustable glue grinding roller with independent temprature control

Model	Max length (mm)	Max Thickness size (mm)	Speed (book/hr)	Warming up (min)	Spine Gluing Roller	Side Gluing	Dust Collecting method	Grinding Roller adjustment	Grinding Roller Indertemp	Dimension (mm)	N.W (kg)
K3	335	60	200-350	35	1	✓	1 fan	✓	✓	1300*670*1080	220
K5					1+1						230
K8	440		300-450	40	2+1	✓	2 fan	✓	✓	1845*750*1140	300
K10	460										320

Digital Creasing / Perforating Machine

BW-K330A BW-K330A2

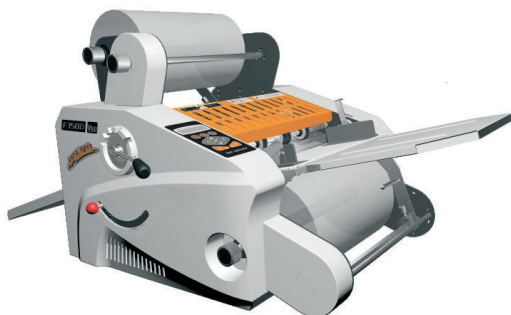

- Error Warning Display
- Default frequent creasing data
- Servo motor with +/- 0.2mm accuracy
- Creasing perforating pressure adjustable

Model	Paper width (mm)	Paper length (mm)	Paper thickness (gsm)	Speed (pcs/hr)	Feeder	Single Direction	Double Direction	Perforating	Machine dimension (mm)	N.W (kg)
K330 A	120-320	80-999	80-400	8000	Manual	✓	/	✓	1600*630*490	88
K330A2	120-320						✓		1600*630*1150	98

Roll Laminator

BW-F350A BW-F350B BW-F350C
BW-F350D BW-F350E BW-F650A

- Speedy alignment device
- Lamination film perforator
- 18 levels-curl technology
- Adjustable laminating speed
- LCD with more setting information
- Laminating start and pause sensor
- Cold lamination device
- Auto separator device (F350C , F350D)
- Auto friction feeder (F350D , F350E , F650E)

Model	Width (mm)	Length (mm)	Paper (gsm)	Speed (sheets/hr)	Heating roller	Feeder	Auto Separator	Manual Cutter	Collecting device	Cold lamination device	Dimension (mm)	N.W (kg)
